

B-VENT Product Update

Metal-Fab B-Vent connects easily to other brands. You don't need anything else!

Mating two different brands of B-Vent doesn't have to cost you time and money - Metal-Fab B-Vent connects to competitive brands in only TWO EASY STEPS!

INSTALLING REPLACEMENT EQUIPMENT

(Into competitive female end, 3"-6"):

STEP 1: Insert Metal-Fab male end into competitive female end (inlet).
NO ADAPTER NEEDED!

STEP 2: Secure with three sheet metal screws. (See instructions in **FIG. 1**.)

FIG. 1

DEPLETING COMPETITIVE STOCK

(Connecting into competitive male end):

STEP 1: Insert male end (outlet) of competitive gas vent into female end of Metal-Fab B-Vent adapter (M6A, M12A, M18A).

STEP 2: Tighten adapter clamp tight around gas vent. (See instructions in **FIG. 2**.)

FIG. 2
