Dare To Compare Metal-Fab With

You may think of grilles and registers as a generic component of the ventilation systems you sell and install. But they are also the most visible representation of the type of quality workmanship your company provides on every job.

Metal-Fab grilles and registers give you an extra measure of quality that you can point out to your customers. Some of our best features aren't readily apparent, but you'll appreciate the benefits on every job.

Take a close look at what we have to offer, then compare it with the brand you're now using and we think you'll agree that grilles and registers are no longer just generic.

No Sharp Surface Edges

Just run your finger along the edge of the top plate and you'll find a smooth finished surface.

Hand Inspected

Every part is hand inspected for quality before it is packaged, no exceptions.

Any Other Brand On The Market...
