

TYPE-B GAS VENT

[B-VENT PIPE & FITTINGS]

METAL-FAB INC.
An OLYMPIC STEEL Company

Faster. Safer. Better.

Metal-Fab provides complete and comprehensive venting solutions to the HVAC, hearth and plumbing markets. Founded in 1959, on the premise that better products and services would be the key to our success.

Metal-Fab continues to operate today as a privately held entity with the same core values that lead to success while creating steady, stable growth over the past six decades.

Customer needs are the highest priority at Metal-Fab, and that is why every customer receives a unique experience while choosing from a full line of high-quality venting products for residential, commercial and industrial applications.

Cutting-edge manufacturing systems, innovative designs, patented products, unmatched product quality, and a focus on detail has resulted in a leadership position within the industries Metal-Fab serves. Our constant product improvement process and experience in developing and engineering products for safe, efficient appliance operation sets Metal-Fab apart from the competition.

Our superior customer service, 1-2 day shipping, and 100% order fill make Metal-Fab the choice for all your venting requirements.

That's The Metal-Fab Way... Experience The Difference

SAFETY

Product Quality
*Engineered for safety
& efficiency.*

Installation Safety
Hemmed flue & casing.

UL Product Certification
*Products tested and listed to
UL441 requirements to ensure
safety and efficiency.*

SureLock™ Locking System
*No sheet metal
screws required.*

EASE

Zero Height Increaser
*No-height increaser design, no
additional space required.*

Positive Twist-Lock Connection
*UL listed to adapt to identified
competing B-Vent brands.*

Swivel Tees & Wyes
*360° rotating male connection
for easy installation.*

Easily Adjustable 45/60 Elbows
*360° rotating collar, 4-piece design
– saves cost of 90° elbow.*

Convenience

One-Stop Vent Shopping

Complete lines of HVAC, Hearth & Plumbing products and accessories.

1-2 Day Shipping

Email Order Confirmation & Tracking

Regional Warehouse Locations

100% Order Fill

Customer Service & Support

World-class customer service, responsive to your needs.

Friendly representatives to assist with design, project layout, job quotes and submittals.

Innovative and talented marketing staff to assist in marketing Metal-Fab products.

Qualified factory technical support department.

Products You Can Trust!

Manufacturing Superior Quality Venting Products For Over 60 Years!

Temp/Guard®

Premium Biomass

SuperFlex™ Stainless Steel Liners

Fire & Ceiling Radiation Dampers

Direct Vent

Black Stovepipe

Corr/Guard®

Grilles, Registers & Diffusers

Complete lines of HVAC, Hearth & Plumbing products to meet your needs for any installation.

UL Listed B-Vent Adaptability _____

Have you ever been in the field and don't have the brand of B-Vent you need?

Metal-Fab understands and that is why we have come up with a solution to save you time and money. Existing B-Vent installations frequently require repair, replacement and maintenance as we all know. What should you do if the existing product make and model cannot be identified with certainty? Let Metal-Fab solve your problems. Our B-Vent 3" through 6" is UL listed to adapt to any competitor's UL listed B-Vent products. Metal-Fab's universal adaptability with identified competing brands provides a competitive advantage in the field and you the installer only need one brand of B-Vent.

Installing Replacement Equipment (3"-6")

Mating two different brands of B-Vent does not have to cost you time and money. Metal-Fab B-Vent provides a solution in two easy steps. Simply, insert the male end (outlet) of the competitive B-Vent brand into the female end (inlet) of the Metal-Fab adapter, then tighten the adapter clamp.

Male Adapter

(Part # - M6A, M12A, M18A)

LISTED MH7860

Depleting Competitive Inventory

Metal-Fab is the only B-Vent manufacturer with UL approval to connect the male end into the female end of all competitive UL listed B-Vent brands, increasing product versatility. Did you know that by simply connecting using three (3) quarter inch sheet metal screws to secure creates a UL listed connection?

Metal-Fab round B-Vent has been evaluated and listed to Underwriters Laboratories to mate with other specifically identified UL listed round gas vent in 3" through 6" diameters. Metal-Fab's approval includes but is not limited to the following B-Vent products:

American Metal Products Co.	(Amerivent)
Continental Industries, Inc.	(AirJet)
ECCO Manufacturing	(Model E/R)
Hart & Cooley, Inc.	(Hart & Cooley B-Vent)
M&G Duravent Inc.	(Type B Gas Vent)
Mitchell Metal Products, Inc.	(Mitch Vent)
Selkirk Corporation	(Energy Vent)

**No
Adapter
Required**

LISTED MH7860

(Part # - M6AF)

Female Adapter

For those installing specialists and building authorities who may prefer the use of a female adapter in contrast to connecting using sheet metal screws. The female adapter is adjusted and the adapter clamp is tightened to the competitive brand of B-Vent.

B-Flex™

Metal-Fab's double wall B-Flex™ can be used as a connector or as a segment of B-Vent in a variety of installations.

**Flexible
double wall
for easy B-Vent
pipe fitting.**

Applications

Use B-Flex™ anywhere B-Vent is required, except where pipe penetrates the structure walls, floors, ceilings or roof.

USED AS A CONNECTOR

Make a direct connection from one or both appliances to a common B-Vent.

USED IN A CRAWL SPACE

Easily connect a furnace located in a crawl space to a rigid B-Vent penetration.

USED IN ATTIC

Make a quick connection from an attic furnace to a rigid B-Vent penetration.

USED THROUGH AN ATTIC

Connect a furnace to a termination on a conventional installation with ease.

Faster. Safer. Better.

Double Wall Versatility, Flexible Advantages.

Quick & Easy

B-Flex™ eliminates measuring, special adapters and assembly of rigid pipe lengths.

Cost Savings

Saves time and labor, a universal solution to connecting appliances to rigid B-Vent.

Convenience

Ready to install right out of the box with factory-assembled male and female positive twist-lock ends.

Adaptability

Can be used with other specifically identified competing brands of UL listed round gas vent 3" through 6" diameters.

UL listed for use as connection from the appliance to rigid Type-B gas vent, and as a segment of B-Vent.

Metal-Fab's approval includes connections at both the male (outlet) and female (inlet) end to the following B-Vent products but is not limited to:

American Metal Products Co.	(Amerivent)
Continental Industries, Inc.	(AirJet)
ECCO Manufacturing	(Model E/R)
Hart & Cooley, Inc.	(Hart & Cooley B-Vent)
M&G Duravent, Inc.	(Type B Gas Vent)
Mitchell Metal Products, Inc.	(Mitch Vent)
Selkirk Corporation	(Energy Vent)

At the male (outlet) end of the compatible gas vent, add an adapter or adjustable length (M6A, M12A, M18A) – then add sections of Metal-Fab B-Vent pipe. At the female (inlet) end of the compatible gas vent, simply insert the male end of the Metal-Fab B-Vent into the compatible gas vent and secure per installation instructions.

SureGrip Vent Support Plate

*The fastest, easiest way to support B-Vent where it penetrates floors and ceilings.
....Just a few minutes and you're finished!*

Cut the hole.

Mount SureGrip support plate.

Push pipe through vent support.

*Continue adding pipe sections
– supports up to 90 lbs.*

Standard SureGrip

Typical two-story installation

**Available for 3"
through 8"
diameter B-Vent.**

Adjustable SureGrip Vent Support Plate

*Holds pipe in a secure position as it penetrates through the roof.
....Can't be accidentally pushed down through the roof!*

Cut the hole.

Mount SureGrip support plate.

Adjustable SureGrip

*Typical attic
appliance
installation*

*Adjustable
SureGrip*

*Available for 3" through 6"
diameter B-Vent.*

*Push pipe through
vent support.*

*Continue adding pipe sections
– supports up to 90 lbs.*

*Fast, sure, support that's easy, trouble-free
and won't let the pipe slip!*

FOR YOUR REFERENCE

MODELS "M" & "MO", TYPE B, GAS VENT

METAL-FAB ROUND AND OVAL TYPE-B GAS VENT IS LISTED BY UNDERWRITERS LABORATORIES, INC. FOR USE WITH APPROVED GAS FURNACES, HEATERS, FIREPLACES AND BOILERS. METAL-FAB MEETS OR EXCEEDS ALL RECOGNIZED GAS VENTING CODES, STANDARDS OR REQUIREMENTS, WHETHER LOCAL, STATE, OR UNITED STATES. MAXIMUM TEMPERATURE RATING FOR B-VENT IS 530° F.

1" Minimum clearance to combustibles for 3" through 24" diameters.

2" Minimum clearance to combustibles for 26" through 30" diameters.

Round pipe and fittings available in 3" through 30" diameters.

Oval pipe and fittings available in 4", 5", and 6" diameters.

Listed 441

MATERIAL SPECIFICATIONS

The outer wall is constructed of galvanized steel, .018" thick G-90 for sizes 3" to 14" diameter, and .024" thick G-90 for sizes 16" to 30" diameter.

The inner wall is constructed of aluminum alloy, .012" thick for sizes 3" to 8" diameter and .018" thick for sizes 10" to 30" diameter.

The vent includes an integral, annular insulating air space, 1/4" thick for sizes 3" to 6" diameter and 1/2" thick for sizes 7" to 30" diameter.

ADAPTABILITY

Metal-Fab round B-Vent has been evaluated and listed by Underwriters Laboratories, Inc., to mate with other specifically identified and UL listed round gas vent, in 3" through 6" diameters. Metal-Fab's approval covers connections at both the male (outlet) end, and the female (inlet) end to the following B-Vent products:

American Metal Products Co.	(Amerivent)
Continental Industries, Inc.	(AirJet)
ECCO Manufacturing	(Model E/R)
Hart & Cooley, Inc.	(Hart & Cooley B-Vent)
M&G Duravent, Inc.	(Type B Gas Vent)
Mitchell Metal Products, Inc.	(Mitch Vent)
Selkirk Corporation	(Energy Vent)

At the male (outlet) end of compatible gas vent, add an adapter or adjustable length (M6A, M12A, or M18A) - then add sections of Metal-Fab pipe. At the female (inlet) end of compatible vent simply insert the male end of Metal-Fab B-Vent into the compatible gas vent and secure per instructions.

SURELOCK™ B-VENT LOCKING SYSTEM:

The design of the SureLock™ B-Vent Locking System is unique. The male end of the pipe features a square dimple, positioned in the exact location to match the tab that is located on the female end of the pipe. When the pipe is joined and twisted until it stops, the SureLock™ tab can be pushed into the square dimple, therefore creating a positive twist lock that cannot be twisted apart. So unique that a patent is pending.

Line up the pipe ends.

Push the ends of the pipe together.

Twist to engage the twist lock.

Depress the SureLock™ tab to secure pipe sections.

To unlock, simply bend out the tab.

Untwist and pull pipe apart.

Note: Vent overlaps 1.5" when joined together. Therefore, assembled length is 1.5" less than listed length.

PIPE LENGTHS – 3M through 14M

With positive twist lock.

SureLock™ is standard on 3" - 6" diameters.

DIAMETER	6"	12"	18"	24"	36"	48"	60"

EASYOUT™ DRAFTHOOD CONNECTOR – 4MDC-CB

Connects to a furnace's internal vent elbow and exits the cabinet, where B-Vent can then be connected.

Designed for specific Carrier, Bryant and Payne gas furnaces, see spec sheet for models.

DRAFTHOOD INCREASER – 3MDC4

For increasing a 3" draft hood outlet to a 4" B-Vent outlet.

SINGLE WALL FLEX CONNECTORS MSWF - 3" through 6"

CAT. NO.	SIZE	A
MSWF03	3"	1', 2', 3', 4', 5'
MSWF04	4"	1', 2', 3', 4', 5'
MSWF05	5"	2', 3', 4', 5'
MSWF06	6"	4', 5'

For easy connection of appliance to common B-Vent.

B-FLEX FLEXIBLE B-VENT MDWF - 3" through 6"

CAT. NO.	SIZE	A
MDWF03	3"	2', 3', 4', 5'
MDWF04	4"	2', 3', 4', 5'
MDWF05	5"	2', 3', 4', 5'
MDWF06	6"	2', 3', 4', 5'

Use as a connection of appliance to common B-Vent or as a segment of B-Vent except where it penetrates the structure: walls, floors, ceilings, roof.

PARTITION THIMBLE MPT - 3" through 8"

CAT. NO.	SIZE	A	B
3MPT	3"	5.63"	9.00"
4MPT	4"	6.69"	9.00"
5MPT	5"	7.69"	11.00"
6MPT	6"	8.69"	11.00"
7MPT	7"	10.19"	13.25"
8MPT	8"	11.19"	14.00"

Adjust from 4.00" to 6.50" for variable wall thickness.

SINGLE WALL FLEX ADAPTER MSWFA - 3" through 6"

CAT. NO.	SIZE	A
MSWFA03	3"	2', 4'
MSWFA04	4"	2', 4'

HANGER/WALL BAND - MH

CAT. NO.	SIZE	A	B
3MH	3"	3.63"	3.22"
4MH	4"	4.63"	3.72"
5MH	5"	5.63"	4.22"
6MH	6"	6.63"	4.72"
7MWB	7"	8.06"	5.00"
8MWB	8"	9.06"	5.50"

FIRESTOP - MFS

CAT. NO.	SIZE	A	B	C
3MFS	3"	3.56"	8.50"	5.50"
4MFS	4"	4.56"	8.50"	6.50"
5MFS	5"	5.56"	10.50"	7.50"
6MFS	6"	6.56"	10.50"	8.50"
7MFS	7"	8.06"	13.00"	10.00"
8MFS	8"	9.06"	13.00"	11.00"
10MFS	10"	11.06"	15.00"	13.00"
12MFS	12"	13.06"	17.00"	15.00"

Spacer ring attached to plate ensures 1" clearance to combustibles.

SUREGRIP VENT SUPPORT PLATE - MVSP

CAT. NO.	SIZE	A
2MVSP	2"	7.00"
3MVSP	3"	8.00"
4MVSP	4"	10.00"
5MVSP	5"	11.00"
6MVSP	6"	12.00"
7MVSP	7"	13.00"
8MVSP	8"	14.00"

The fastest, easiest way to support B-Vent where it penetrates floors and ceilings

Note: Pipe not included

SUREGRIP VENT SUPPORT PLATE ADJUSTABLE - MVSPA

CAT. NO.	SIZE	A	B	C
3MVSPA	3"	6.00"	9.00"	3.48"
4MVSPA	4"	7.00"	10.00"	4.48"
5MVSPA	5"	8.00"	11.00"	5.45"
6MVSPA	6"	9.00"	12.00"	6.45"

Note: Pipe not included.

TEE CAP - MTC

Sizes 3" through 30"

Use to cap flue when tee has no bottom (inlet) entry.

SUPPORT PLATE - MSP

CAT. NO.	SIZE	A	B	CAT. NO.	SIZE	A	B
3MSP	3"	8.50"	17.00"	16MSP	16"	21.50"	21.50"
4MSP	4"	9.50"	17.00"	18MSP	18"	23.50"	24.00"

14MSP	14"	19.50"	21.50"				

HEAVY SUPPORT - MHS - 10" through 30"

CAT. NO.	SIZE	A	B
10MHS	10"	16.00"	10.63"
12MHS	12"	18.00"	12.63"
14MHS	14"	20.00"	14.63"
16MHS	16"	22.00"	16.63"
18MHS	18"	24.00"	18.63"
20MHS	20"	26.00"	20.63"
22MHS	22"	28.00"	22.63"
24MHS	24"	30.00"	24.63"
26MHS	26"	32.00"	26.63"
28MHS	28"	34.00"	28.63"
30MHS	30"	36.00"	30.63"

Designed to support large size pipe sections.
Also serves as a firestop.

GUY RING - MGR

Sizes 10" through 30"
For additional support above the roof.

STANDARD FLASHING – MF

CAT. NO.	SIZE	A	PLATE	CAT. NO.	SIZE	A	PLATE
3MF	3"	7.50"	14.63" x 14.63"	16MF	16"	21.00"	29.00" X 29.00"

OVAL TEE CAP – MOTC

CAT. NO.

4MOTC

5MOTC

6MOTC

Sizes 4" through 6" Use to cap flue when tee has no bottom (inlet) entry.

OVAL TEE SUPPORT – MOTS

CAT. NO.

4MOTS

5MOTS

6MOTS

Sizes 4" through 6"

OVAL FIRESTOP SPACERS – MOFS, MOFS6

CAT. NO.

4MOFS

5MOFS

6MOFS

CAT. NO.

4MOFS6

5MOFS6

Sizes 4" through 6"
Fits space between studs 16" center.
Note: Model MOFS6 is for 2" x 6" stud wall.

BW INSTALLATION KIT – MOK – 4" ONLY

CAT. NO.

4MOK

Kit Includes:
4CPS Ceiling Spacer Plates (2)
4BP Base Plate (1)
Gasket (1)

For venting recessed wall heaters. The installation kit adapts 4" MO pipe for use with wall furnaces.

Faster. Safer. Better.
