Subject: Use of Metal-Fab Sure-Seal DV Direct Vent Venting Systems on  
HearthStone Quality Home Heating Products DV appliances.

Dear Mr. Werth,

Intertek has performed an evaluation for the Metal-Fab Sure-Seal Direct Vent  
Venting Systems to be accepted for use on all HearthStone Quality Home Heating  
Products direct vent appliances.

Based on testing previously performed for compliance on various gas appliances  
with UL Subject 2112-2000 and applicable sections of ANSI Z21.88-2005 • CSA  
2.33-2005 and ANSI Z21.50-2003 • CSA 2.33-2003, Intertek has deemed the  
Metal-Fab Sure-Seal Direct Vent Venting System is acceptable for use on all  
HearthStone Quality Home Heating Products direct vent appliances listed with the  
Warnock Hersey mark. All manufacturers with an appliance listed with a Warnock  
Hersey mark who wish to accept the use of the Metal-Fab Sure-Seal Direct venting  
system on their product, must submit either a revised instruction manual or an  
appendix to an existing instruction manual indicating the use of the Metal-Fab Sure-  
Seal Direct venting to Intertek for review.

Sincerely,

\_\_\_\_\_
