Subject: Metal Fab Direct Vent Approved for Use with Travis Products

Travis Industries is pleased to announce that the following Travis direct vent models may be used in conjunction with the listed Metal Fab co-axial vent:

- 864 TRV 5D Series Pipe with 5DHT or 5DVT termination
- 21 DV 5D Series Pipe with 5DHT or 5DVT termination
- Lopi Heritage 4D Series Pipe with 4DHT or 4DVT termination
- Lopi Sturbridge 4D Series Pipe with 4DHT or 4DVT termination
- Lopi Berkshire 4D Series Pipe with 4DHT or 4DVT termination

When using the vent, make sure to follow the clearances, vent configuration diagrams, restrictor settings, and termination requirements detailed in the appliance manual. In addition, follow all of the requirements listed in the vent installation instructions. These instructions, as well as a brochure for this vent, may be found at:

http://www.mtlfab.com/metal_fab_inc/residential_products/direct_vent

The manual for our products have been updated to show approval for this vent.
