NEW AND IMPROVED HIGH-PERFORMANCE TYPE-B GAS VENT CAP

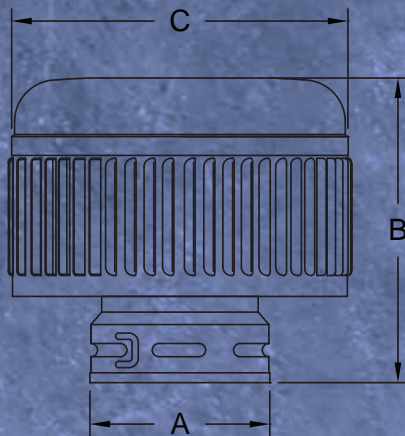

Metal-Fab is committed to being an innovative leader in an industry that demands quality, excellence, and safety. Manufacturing superior venting products since 1959, we take pride in our continuous efforts to provide new and improved, highly efficient products to our customers.

B-VENT PRODUCTS AND ACCESSORIES

THE BEST JUST GOT BETTER AT METAL-FAB!

Introducing the new and improved Type-B High Performance Gas Vent Cap. The next generation of venting products has arrived. Metal-Fab's Type-B gas vent cap is UL441 listed and manufactured in the U.S.A. with superior venting technology to give your customers the confidence they have the best. The new low-profile design reduces the vent cap footprint and provides greater wind and water protection, eliminating rain leaks while minimizing the potential for downdrafts. Metal-Fab Type-B Gas Vent Caps are manufactured from the highest quality materials, helping to increase product function and efficiency, creating a product that lasts a lifetime.
